AAHAAS CORE APP

Vendor Guide

Run your fleet from your phone.
For vehicle vendors and their drivers, step by step.

Version 1.0.1 | November 2026 | Sri Lanka · Vietnam · Singapore · Malaysia

WELCOME

Your fleet, on one phone

Aahaas CORE lets you manage your drivers and vehicles, put them on trips and see who is on the road. Your drivers use the same app to run each trip.

Who does what

You, the vendor
Add drivers and vehicles, request open trips, and give each trip a driver and vehicle.

Your drivers
Sign in with a WhatsApp code, then run the trips you give them.

Aahaas operations
Approve new vendors, give you trips, and confirm your trip requests.

What you need
A phone with mobile data, an e-mail address, and each driver's WhatsApp number. Ask operations for the app download link.

Good to know
Your drivers and vehicles need no approval from operations. Trip rates are not shown in the app.

THE BIG PICTURE

Six stops to a running fleet

Set up once, then repeat the last three stops for every trip.

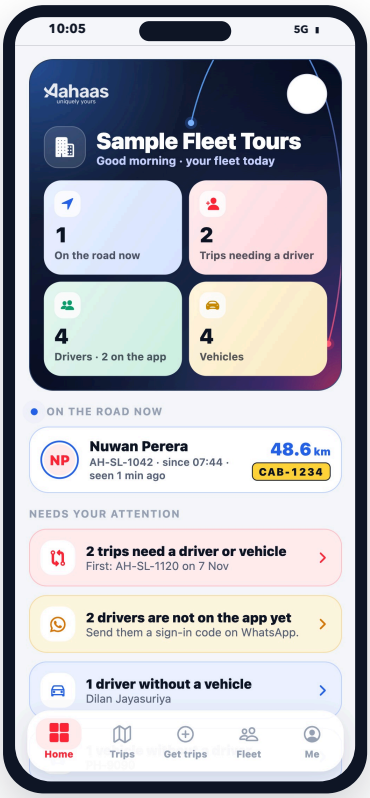

Stops 4, 5 and 6 repeat for every trip.

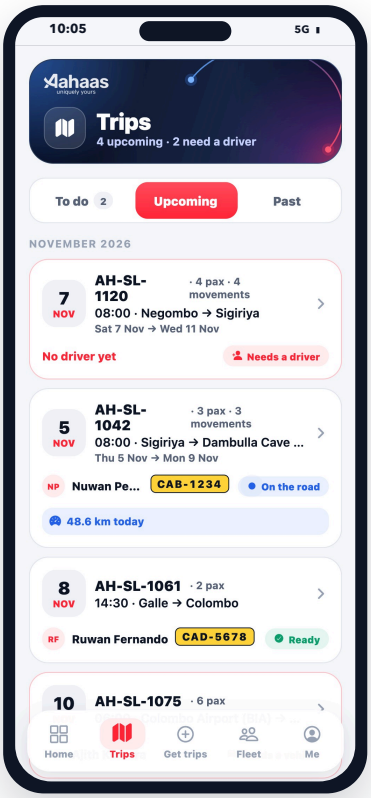

THE APP AT A GLANCE

Five tabs for your fleet

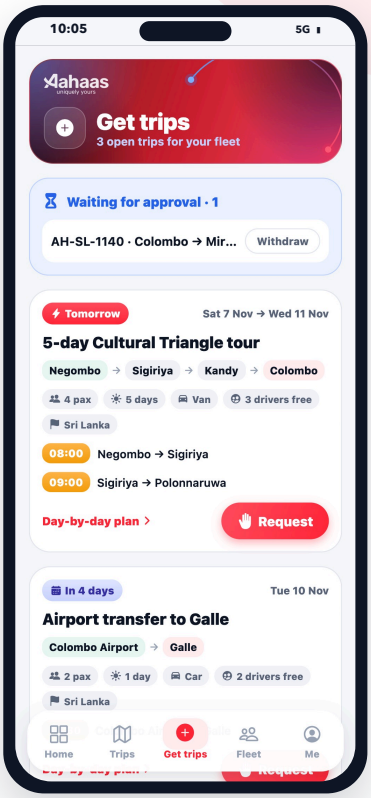

The tabs sit at the bottom of every main screen.

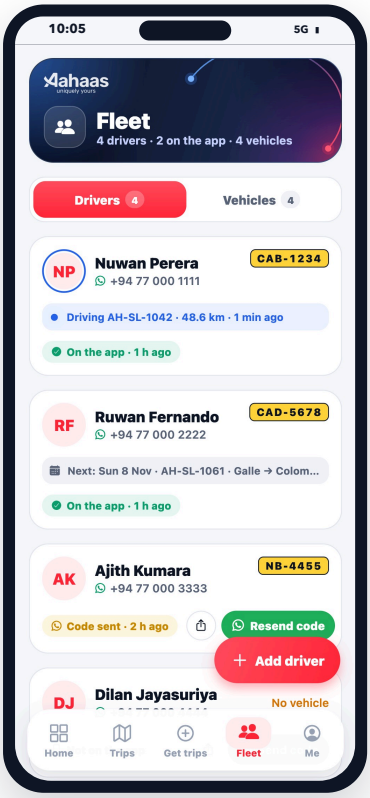

Home

Add and pair vehicles

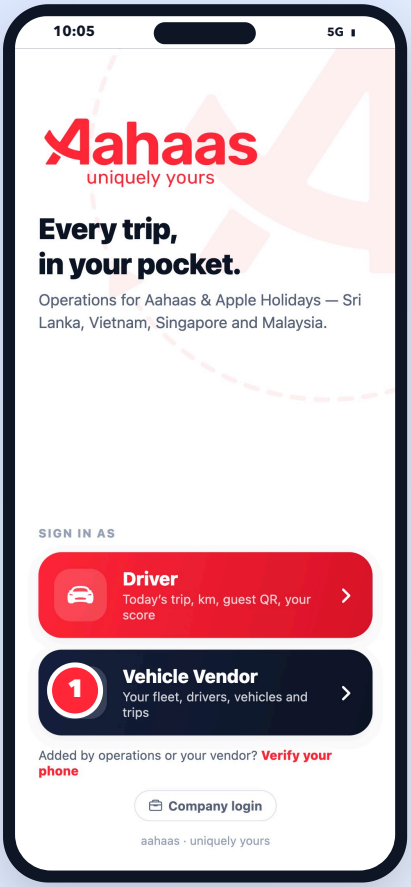

Me
Company details, sign out

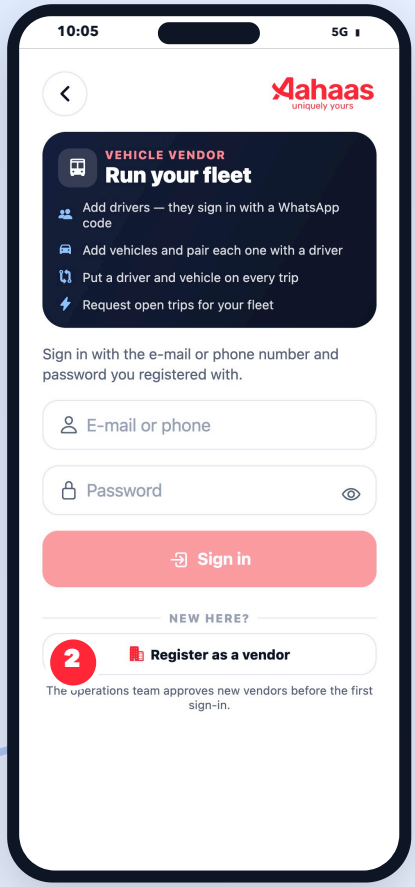

STEP 1

Register your company

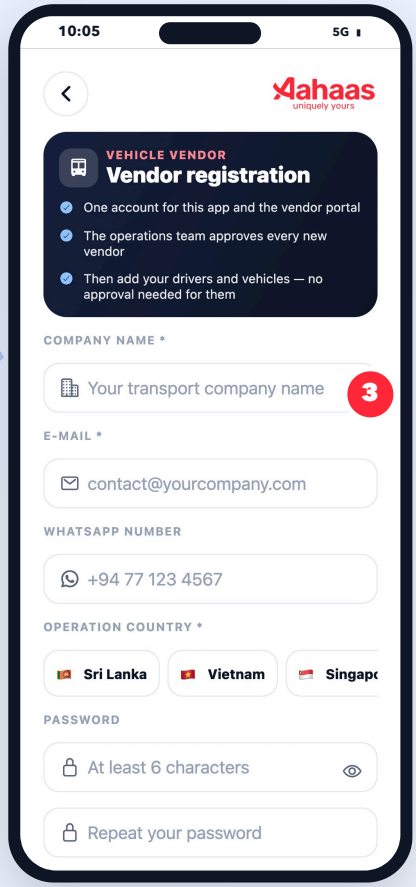

One account works for this app and the vendor portal. Already have a portal account? Just sign in with it.

Tap **Vehicle Vendor**

Tap **Register as a vendor**

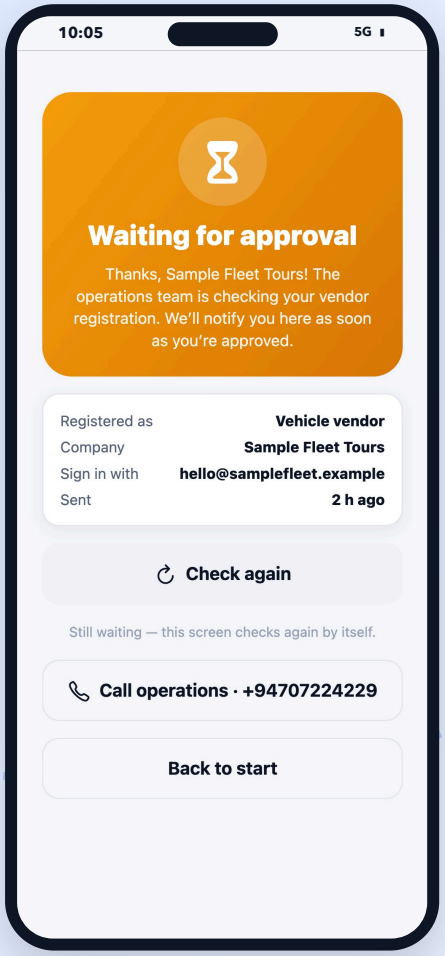

Fill in your details

1. Open the app and tap **Vehicle Vendor**.
2. Under *New here?*, tap **Register as a vendor**.
3. Type your company name and e-mail. Add your WhatsApp number if you want.
4. Choose your operation country.
5. Choose a password of at least 6 characters, and type it again.
6. Tap **Register as vendor**.

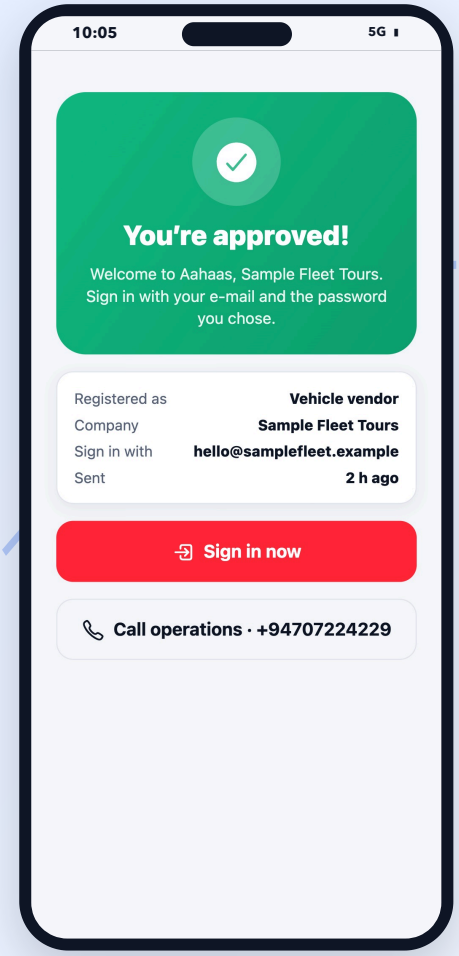

STEP 1 · AFTER YOU REGISTER

Wait for approval

Operations approve every new vendor. The waiting screen checks by itself, and you also get a notification.

Waiting for operations

Tap **Sign in now**

1. Tap **Vehicle Vendor**.
2. Type your e-mail or phone, and your password.
3. Tap **Sign in**.

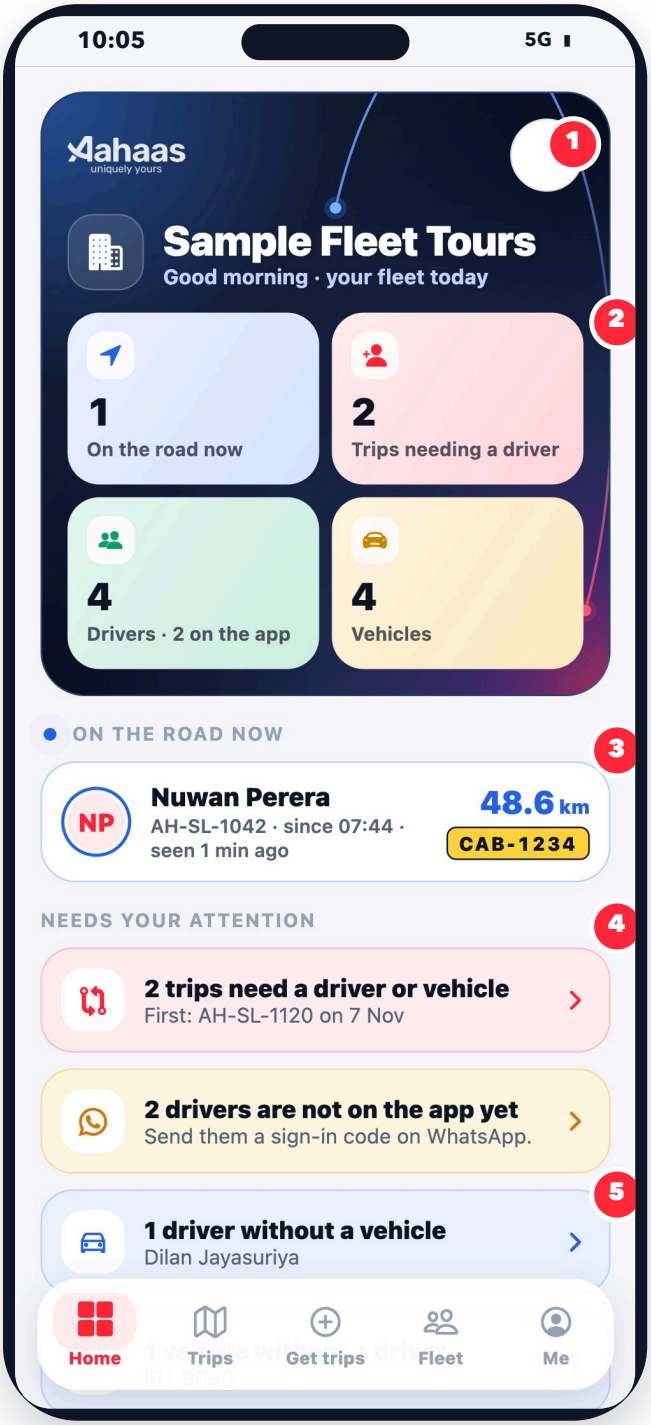

Closed the app?
The welcome page shows **Vendor registration sent**. Tap it to check again.

Forgot your password?
The vendor sign-in has no reset button. Ask operations.

YOUR HOME SCREEN

Know your Home screen

Open this first every day. It shows who is driving, what needs a driver and anything to fix.

1. **Notifications.** The round white button at the top right.
2. **Fleet numbers.** On the road now, trips needing a driver, drivers and vehicles.
3. **On the road now.** Each driver's km today and vehicle.
4. **Needs your attention.** Trips with no driver and drivers not on the app. Tap to fix.
5. **Blue notes.** Drivers with no vehicle, or vehicles with no driver.

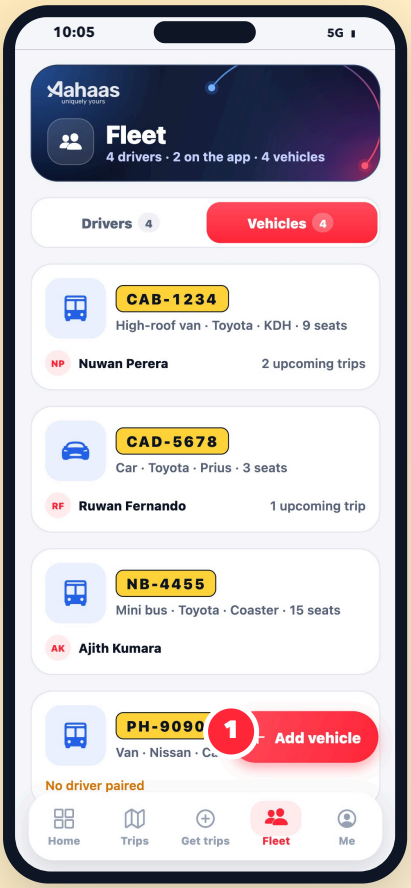

Scroll down for more

Trip requests waiting for operations, today's trips, and what is coming up.

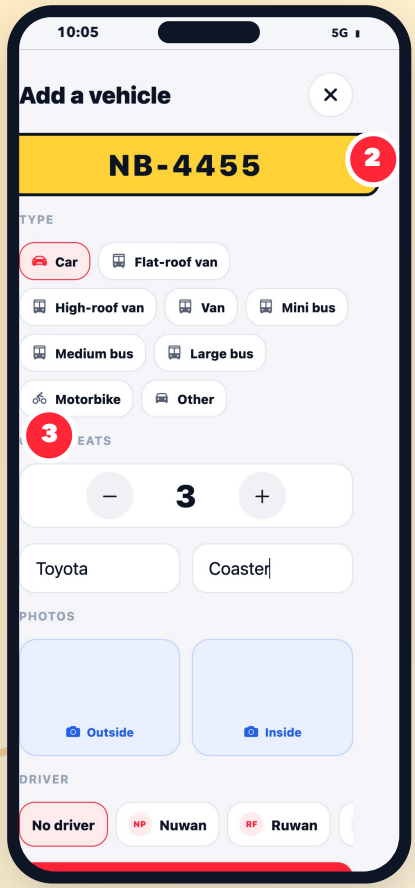

STEP 2

Add your vehicles

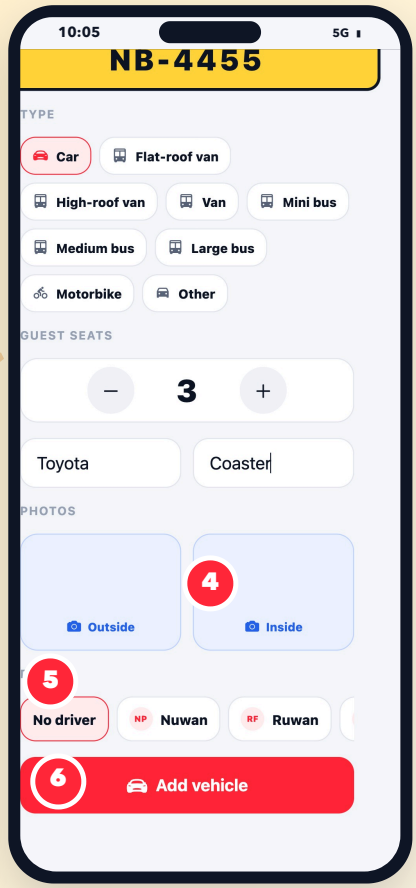

Add each vehicle once. One vehicle has one driver. No approval is needed.

Fleet, then **Vehicles**

Plate, type and seats

Photos and driver

1. Open **Fleet**, tap **Vehicles**, then **Add vehicle**.
2. Type the number plate.
3. Choose the type, then set the guest seats.
4. Add the brand and model, and tap **Outside** and **Inside** to add photos.
5. Choose a driver, or leave **No driver** for now.
6. Tap **Add vehicle**.

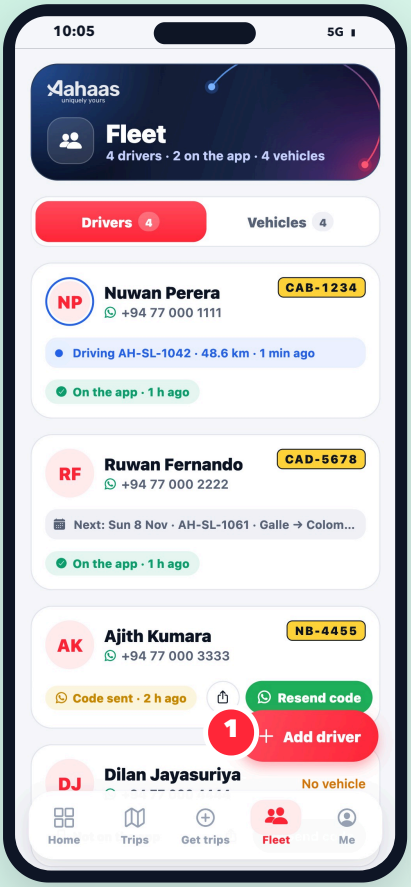

Moving a driver

If the driver already has a vehicle, saving moves them to this one. The app warns you first.

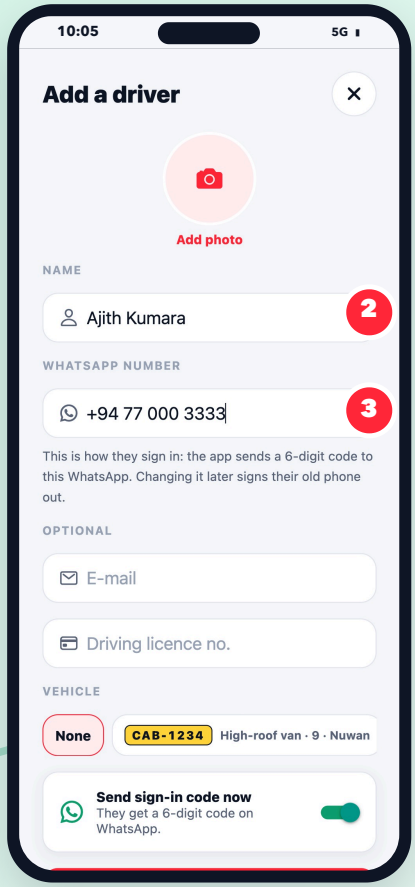

STEP 3

Add your drivers

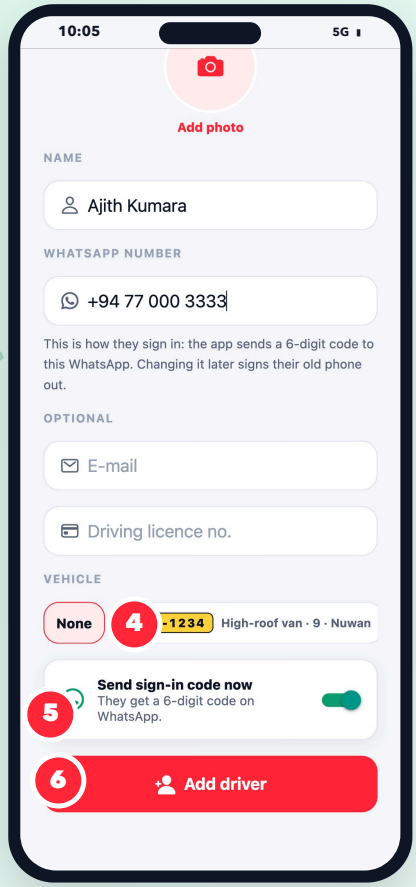

The WhatsApp number is how your driver signs in. No approval is needed, so they can start straight away.

Fleet, then **Add driver**

Name and WhatsApp number

Vehicle, code, then save

1. Open **Fleet** and tap **Add driver**.
2. Type the driver's full name. Add a photo if you want.
3. Type their WhatsApp number with the country code, such as +94 77 123 4567.
4. Choose their vehicle, or **None** for now.
5. Keep **Send sign-in code now** on, so they get a 6-digit code on WhatsApp.
6. Tap **Add driver**, then **Share steps** to send them the instructions.

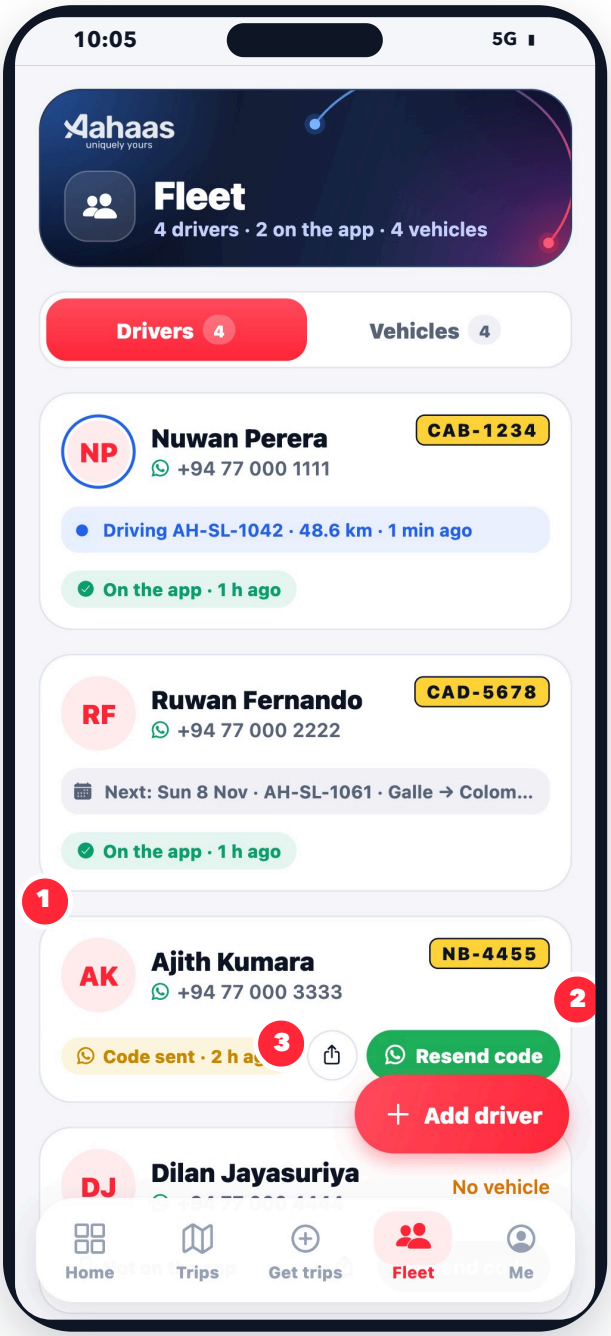

Code expires in 10 minutes

If your driver is not ready, turn the code off. Send it from the Fleet tab when they are ready.

STEP 3 · KEEP TRACK

Get every driver on the app

Each driver card shows their app status. Your driver cannot see trips until they sign in.

On the app
The driver has signed in. You are done.

Code sent
A code went out, but they have not signed in yet.

Not on the app
They have not joined. Send them a code.

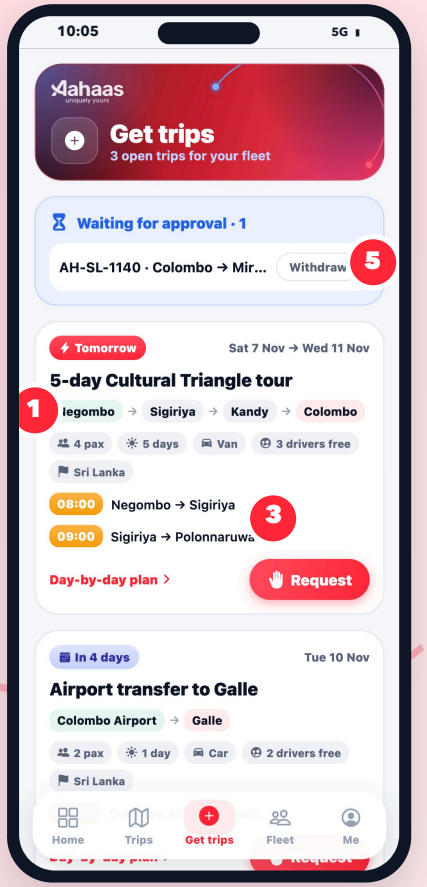

1. Open **Fleet** and find the driver.
2. Tap **Send code** or **Resend code**. The code goes to their WhatsApp.
3. Tap the small share button to send the sign-in steps.

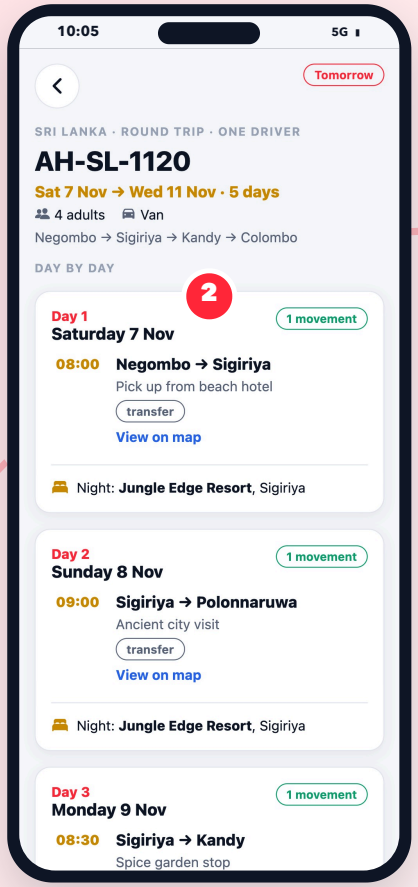

Show your driver Part 2
The driver pages at the end of this guide explain their first sign-in.

STEP 4

Request open trips

The Get trips tab shows open trips for your fleet, and how many of your drivers are free.

1. Open **Get trips** and look through the cards.
2. Tap a card to see the **day-by-day plan**: times, routes, free days and hotels.
3. Tap **Request**. If the button says **Take this trip**, it is yours at once.
4. **Request sent** means operations will confirm. You get a notification.
5. While you wait, your request sits at the top. Tap **Withdraw** to cancel it.

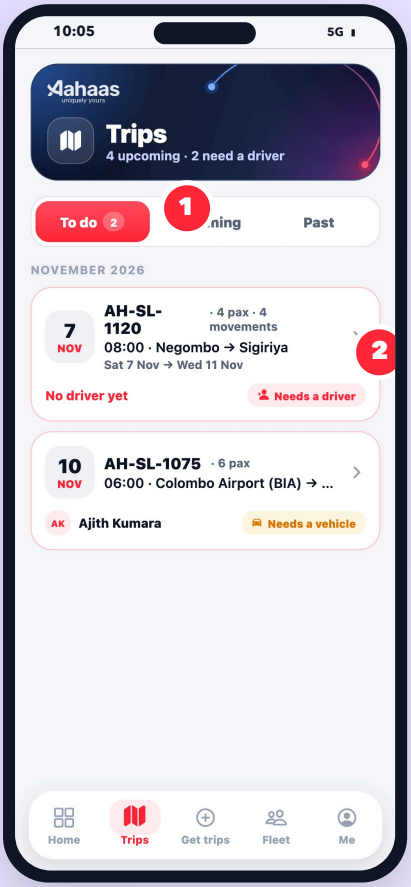

"All your drivers are out on these dates"
Every driver already has a trip on these days.

"More guests than your biggest vehicle seats"
No vehicle in your fleet is big enough.

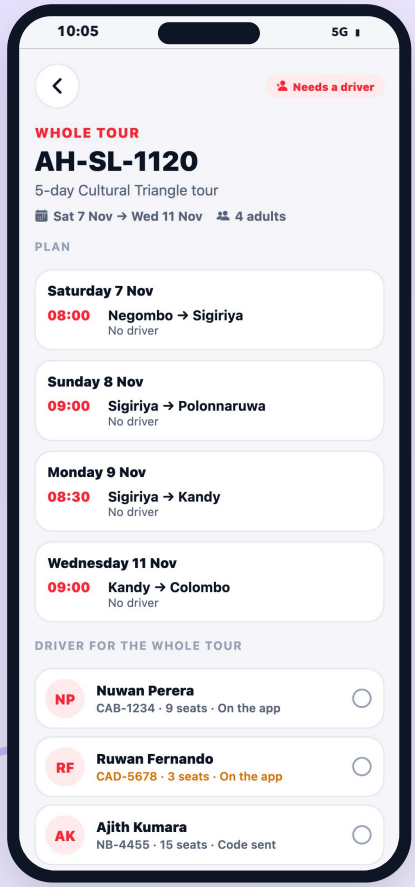

STEP 5

Give the trip to a driver

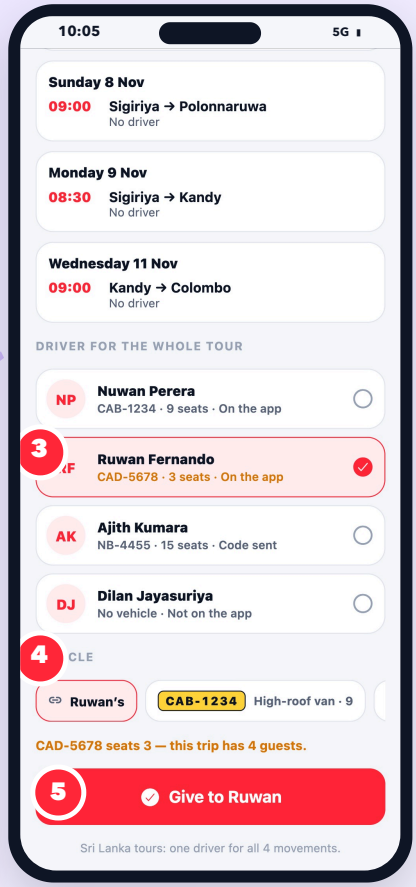

Trips from operations and approved requests appear in the Trips tab. The To do view shows what needs you.

Open **To do** and tap a trip

Check the plan

Pick, then give

1. Open **Trips** and tap **To do**.
2. Tap a trip and check the plan.
3. Choose a driver. Their own vehicle comes with them.
4. To use another vehicle, tap it under **Vehicle**.
5. Tap **Give to** and the driver's name. They get a **New trip** notification.

Whole tour or movement?

Sri Lanka tours take one driver for the whole tour. In other countries you choose per movement.

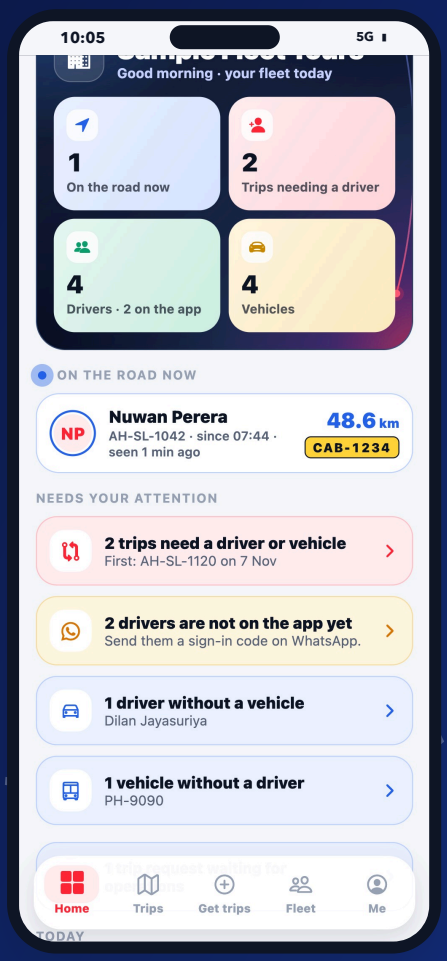

"Please check" message?

The driver has another trip that day, or the vehicle is too small. Tap **Change**, or **Assign anyway**.

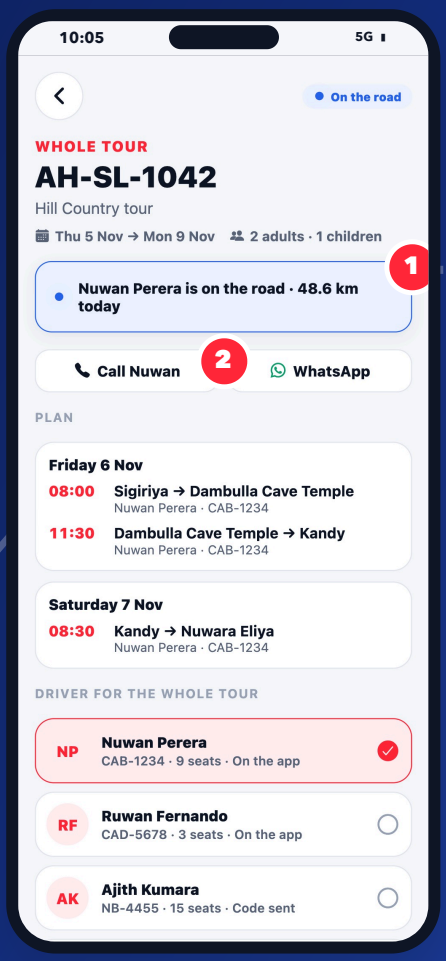

STEP 6

Follow the day

See who is driving and how far they have gone. Call or message them in one tap.

Home: **On the road now**

Trip page: live km and contact

1 **Live card.** Shows the driver and km today.

2 **Call or WhatsApp.** Reach the driver in one tap.

What each trip label means

Needs a driver · Needs a vehicle · Ready · On the road · Done

Change a driver

Open the trip, choose another driver and tap **Give to**. The old driver gets a **Trip changed** notification.

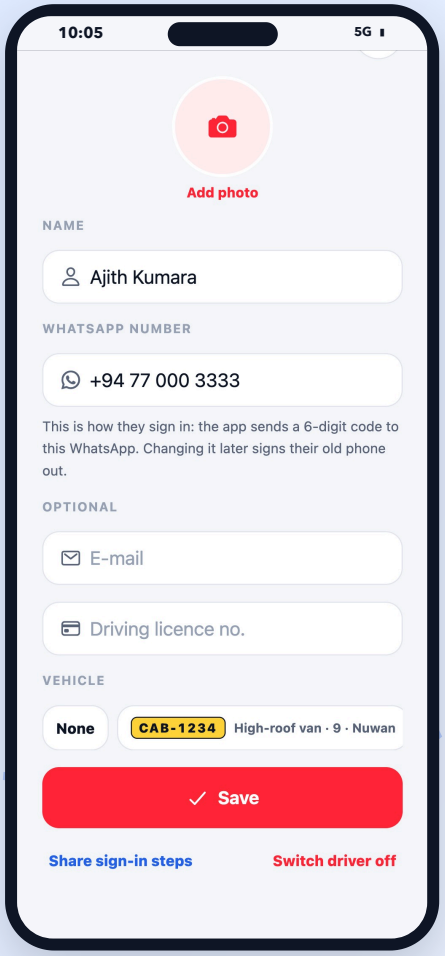

Past trips

The **Past** view shows trips from the last 60 days.

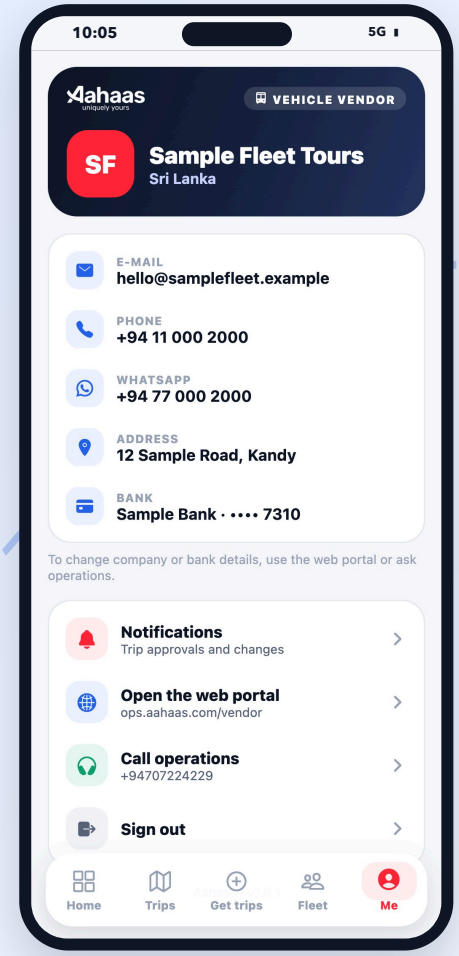

DAY TO DAY

Keep your fleet up to date

Tap any driver or vehicle in the Fleet tab to edit it. Nothing is ever deleted. You switch it off instead.

Edit a driver

Your company details

Switch a driver off

Open the driver and tap **Switch driver off**. They cannot sign in or get trips. If they have upcoming trips, give those to someone else first.

Switch a vehicle off

Open the vehicle and tap **Switch vehicle off**. It leaves its driver and cannot go on new trips.

Change a WhatsApp number

Edit the driver and save. Their old phone is signed out, so send a new code.

Change company or bank details

Use the web portal or ask operations. **Me** shows the details on file, and links to the portal.

PART 2

For your drivers

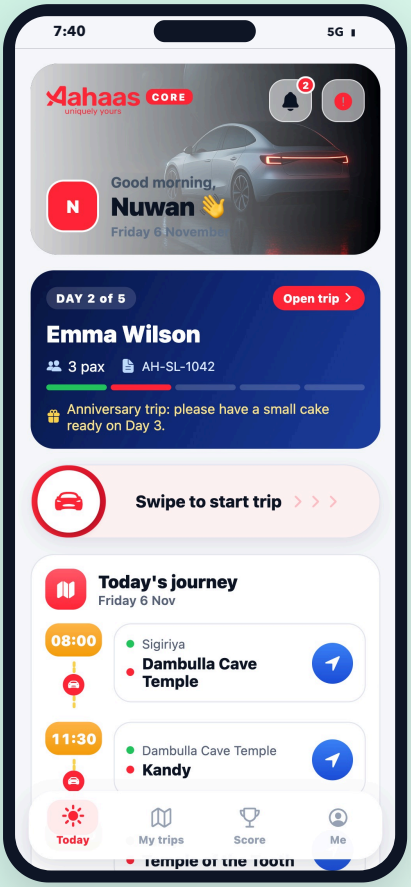

Share these pages with every driver in your fleet.

1. What is different for you
2. Your first sign-in
3. Drive a trip
4. Tools for every trip

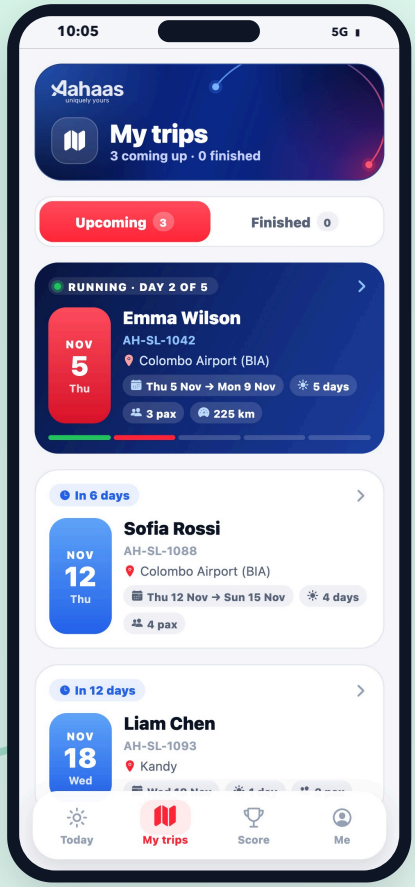

VENDOR DRIVERS

Your vendor runs your work

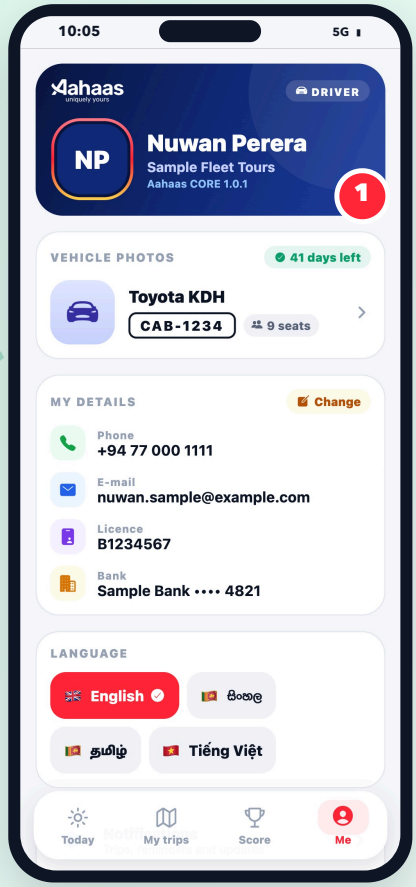

You use the same driver app as every Aahaas driver, with three differences.

Today: your next step

My trips: from your vendor

Me: shows your vendor

No registration

Your vendor adds you. Do not use Register as a driver.

No Get trips tab

Your vendor gives you trips. They appear in My trips.

Your vendor can see you

They see when you drive, your km and your vehicle.

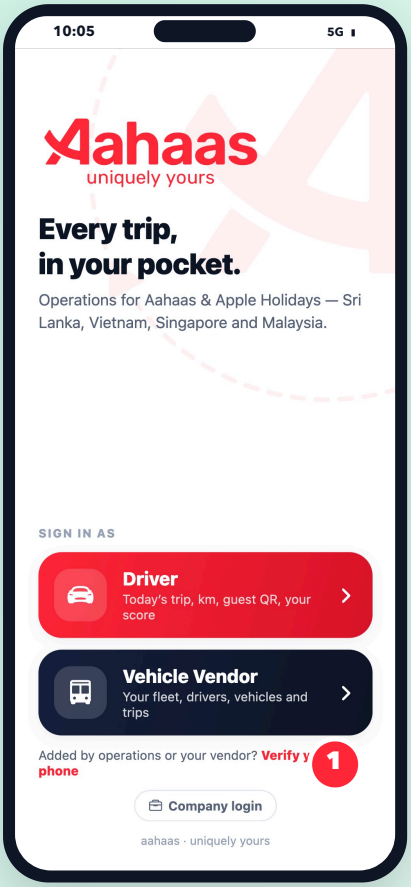

You get a notification

New trip when your vendor gives you a trip, and **Trip changed** if they move it to another driver.

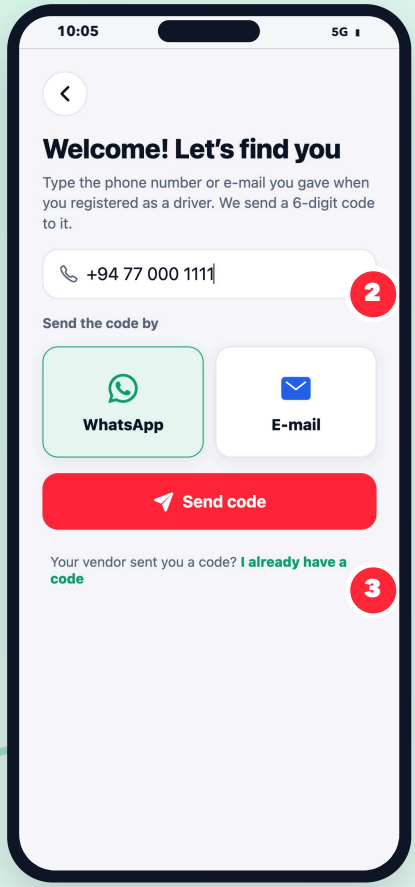

VENDOR DRIVERS

Your first sign-in

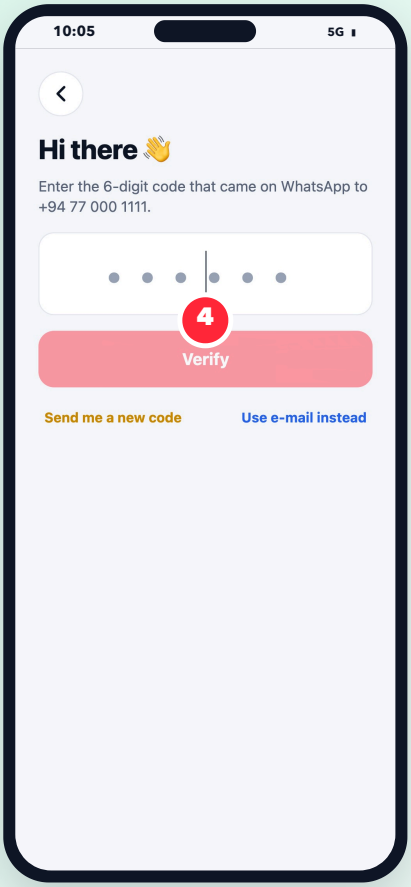

Your vendor adds your WhatsApp number and sends a 6-digit code to it.

Tap **Verify your phone**

Your number, then the code link

Type the 6-digit code

1. Install the app and open it.
2. On the welcome page, tap **Verify your phone**.
3. Type your WhatsApp number.
4. Tap **I already have a code**. No code? Tap **Send code**.
5. Type the 6-digit code from WhatsApp.
6. Choose a password of at least 6 characters and tap **Save and continue**.
7. Next time, tap **Driver** and sign in with your number and password.

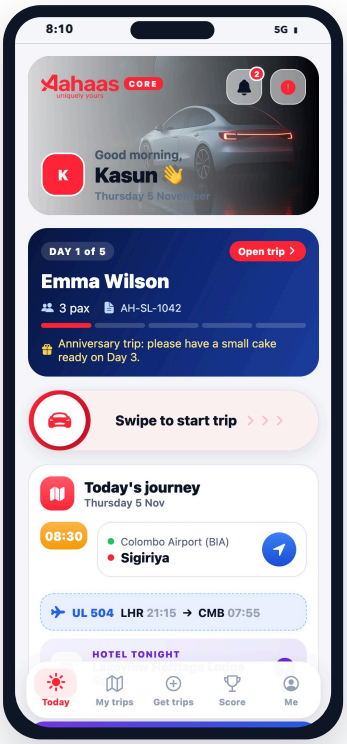

Code not working?

A code lasts 10 minutes. Tap **Send me a new code**, or ask your vendor to resend it.

VENDOR DRIVERS

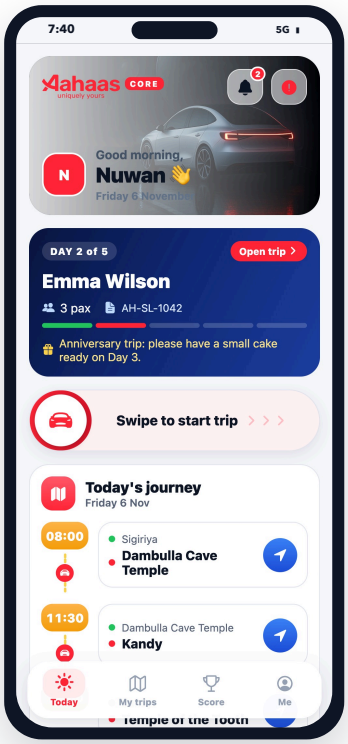

Drive a trip in six steps

Today always shows your next step on one swipe button. Slide it fully to the right.

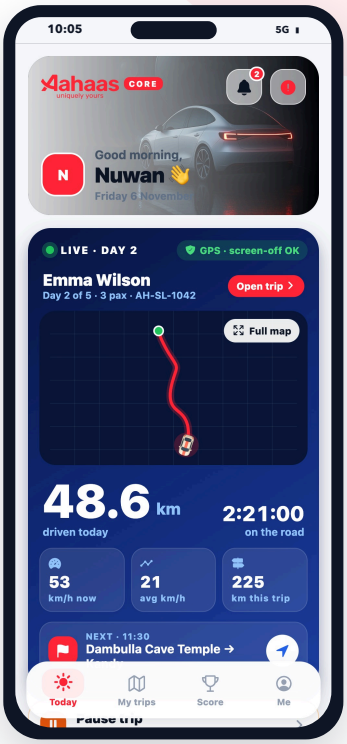

1 Start trip

First day. Swipe and show the guest the QR code.

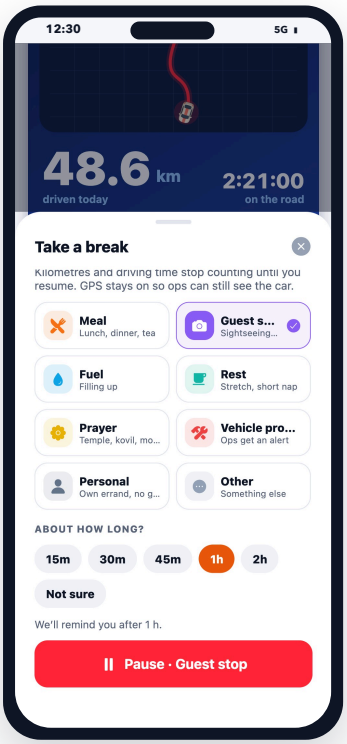

2 Start day

Swipe when you leave. Choose **Allow all the time** for location.

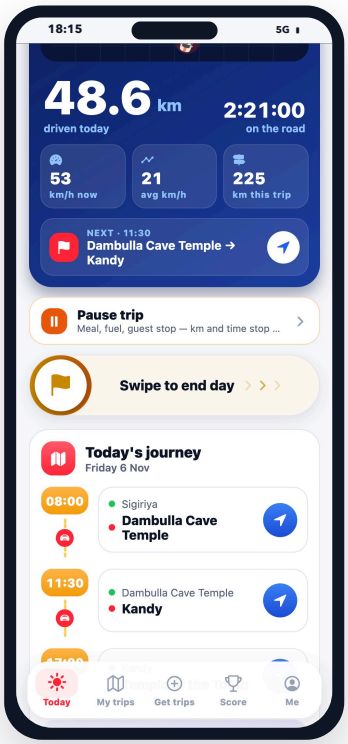

3 Drive

Km count by themselves. Tap navigate for directions.

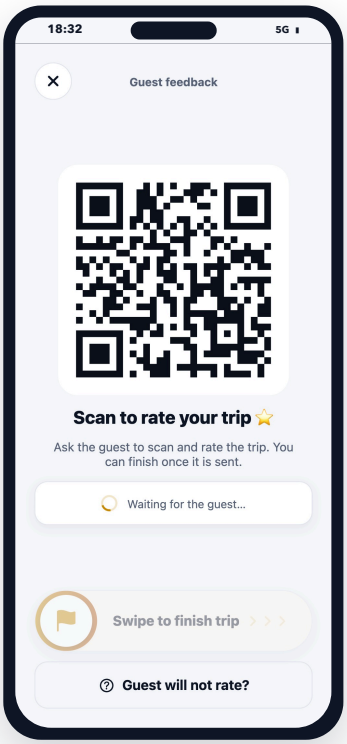

4 Take a break

Tap **Pause trip**. Swipe to resume when ready.

5 End day

Swipe every evening. Next morning, Start day again.

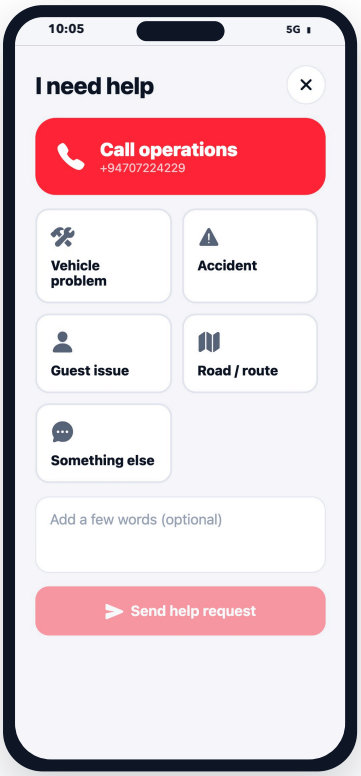

6 Finish trip

Last day: upload tickets. The guest scans and rates.

VENDOR DRIVERS

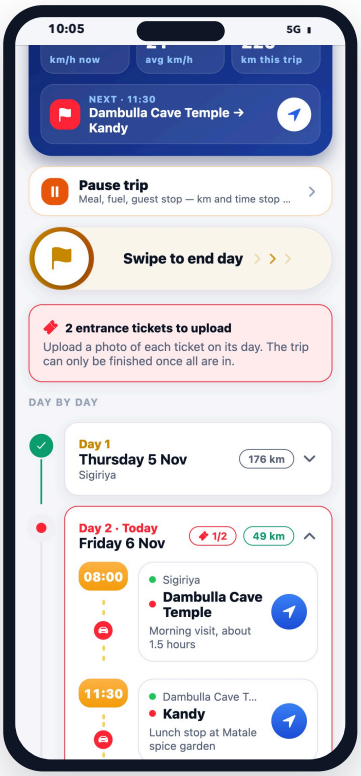

Tools for every trip

These work the same for every driver.

Get help

Tap the red button on Today. Call operations, or send a problem with your location.

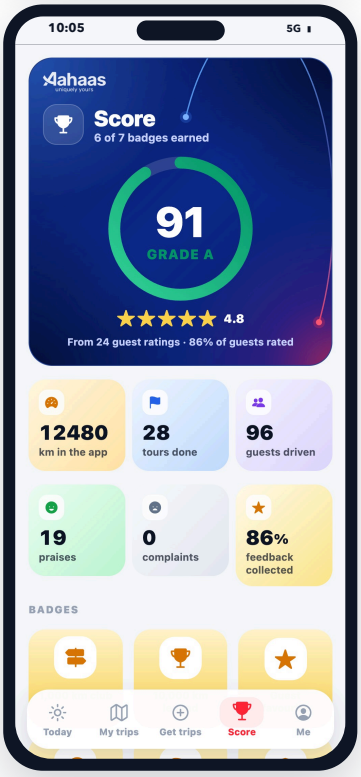

Entrance tickets

Open the trip, tap the day, then tap **Upload**. All tickets are needed before you finish.

Vehicle photos

Every 60 days: **Front**, **Back** and **Inside (seats)**. Tap the yellow card on Today.

Your score

See your rating, badges, km and guest comments on the Score tab.

Want more detail?

The **Aahaas CORE Driver Guide** explains every driver step with larger screens. Ignore its Register and Get trips pages.

QUICK FIXES

Problems and answers

Find your problem, then try the fix. For anything else, call operations.

Vendor: I cannot sign in
Operations may not have approved you yet. Check the welcome page.

Vendor: the app signed me out
Your password may have changed on the vendor portal. Sign in again.

Vendor: a WhatsApp number is refused
A number can belong to only one driver. Check it, or ask operations.

Vendor: the plate is already registered
Check the plate, or ask operations.

Vendor: the code could not be sent
Tap **Share steps instead**. The driver can tap **Send code** in the app.

Vendor: I cannot switch a driver off
Give their upcoming trips to another driver first.

Vendor: a trip disappeared
It may have been moved or cancelled. Call operations.

Vendor: no open trips
We notify you when one opens. Vendors may be off in some countries.

Driver: I have no Get trips tab
This is normal. Your vendor gives you trips.

Driver: I see no trips
Ask your vendor. Trips appear after they give them to you.

Driver: my code does not work
Codes last 10 minutes. Ask for a new one.

Driver: my old phone signed out
Your vendor changed your number. Verify your phone again.

Aahaas
